

Stettler Pool League 2024-2025 League Rules & Awards

League Standings for team play:

Round wins determine teams' standings. Each night of league play has the potential to earn a team up to 5 points. A round win is awarded for the team that has the most points after each round, if a round ends with the same number of points for each team, each team is awarded a ½ point. A fifth point is awarded to the team with the highest points at the end of the match. In the event of a tie in points after the match is complete, game wins are used as a tie breaker.

For league standings, if tied in Round Wins, total team points are used as the tie breaker.

Handicap:

Every player begins with a 10 for their first match. After a week of play, their total points divided by number of games played equals their average. A maximum of 12 points is allowed to be given as a handicap per round.
